Security Guard 1
Security Guard 2

Attorney Note: The encounter that was provided was not Mr. Conte's first visit to the hospital, on a previous day he was there and then returned the day of the incident. The video is on his youtube and she would like me to view it.

Security Guard 1:

-I received a notification that Mr. Conte was outside and that he needed to assist Security Guard 2 with someone who was video taping
-This was via radio
-We went outside the main lobby and he asked Mr. Conte to leave the premises because there is no videotaping on the premises.
-Did walk the hill with the other two individuals but did not hear the exchange. I was in the background and was unable to hear what the parties said to each other.
-Saw the complainant leave the property, and that's the last I've seen of him.

Security Guard 2:

-When did you first see him? I saw him by the Emergency room. When did you approach him? I didn't approach him but I informed him he was videotaping and told him had to leave. Before on the same day is when this happened. By the emergency room he was nasty in the beginning and called me jagoff and a dickhead and then he walked off. After that he left, he walked down, and he saw Mr. Conte going up the main steps towards the main lobby and that's when he radioed Security Guard 1 for help.

-After Security Guard 1 came out, I told him again that he needs to leave. We exchanged words, his words weren't very pleasant, I assume he was upset that he had to leave. I said "do you have rights or privilege? Get out of here" Thinks that Complainant heard "white privilege" instead. Is denying he said it at all. (Asked Security Guard if he had seen the video, and still denies making the statement).

-Did you ask Mr. Conte to leave because he is white? No (Both Guards say no).

Notes will be provided to both parties and the deadline for response and summary is August 28th at noon.
